**Memories**, 2021, Oil on canvas,  
Diameter 20 inches, \$800

The painting is a heartfelt tribute to Scotland, the place that holds sentimental value to Nokie. It resonates with her memories of the Scottish Highlands. The choice of a palette knife for the artist's first attempt adds a bold and textured dimension to capture the scenic Scottish outdoors.

**Macaw**, 2022, Oil on canvas, 20 x 16 inches, Not for sale

The Scarlet Macaw holds a special place in the artist's heart, given that her name, 'Nok,' means bird. The vibrant colors of this South American native bird are accentuated by the thoughtful addition of Hibiscus and Heliconia, complementing its beauty with native flora. Monstera leaves serve as a reminder of the painting's creation during the Covid lockdown, when the plants gained so much popularity.

**Swim**, 2021, Oil on canvas, 18 x 24 inches, \$900

The artist initially intended the Koi painting for Feng Shui in her home, but as she immersed herself in the process, she fell in love with capturing the graceful movements of the two beautiful fish. The intricate detailing of fins and tails, set against the backdrop of five water lily leaves, not only aligns with Feng Shui principles but also reflects a newfound admiration for the elegance of these aquatic creatures.

# ABOUT THE ARTIST

Nokie, a weekday Energy Data Analyst and weekend artist, originally hails from Thailand but has called Singapore home for many years.

Her artistic journey began in 2016 as a response to mounting stress, finding solace and joy in painting that persists as a weekend

ritual. While her early works embraced Acrylic as a medium, she later discovered a profound connection with Oil.

Nokie's vibrant subjects often draw inspiration from people in her life and the kaleidoscope of colorful animals.
